

Rename a peep to the name on the left to use these cheats

## RCT3: Wild! Cheats

Rabbit	Animals Constantly Breed - Should make your animals reproduce very quickly, like rabbits.
Alvin Swazonegger	Allow Large Billboard Movies

## RCT3: Soaked! Cheats

Mornington Crescent	This allows building shops etc. underground (use SHIFT to lower an object's position until it is say, level with an underground path).
David Walsh	This allows removal of the user interface (ie all the icons, menus etc) using CTRL+U once the cheat is active. This is great for taking screen shots. Press CTRL+U again to get the user interface back.
M Brookes	Enables you can place wall pieces and other scenery items on the edge of path tiles.
Alistair Lindsay	Alters the speed at which some sound effects are played at pause, fast and fastest.
Rick Griffiths	Changes the inside of a tunnel from rubble to sharks on both sides, the ceiling and the floor.

## v1a Beta Patch Cheats

Andrew Thomas	Decreases track friction, which can make coasters go faster along their tracks
David Braben	Disable the Lift Chain Speed & Launch Speed limits. Normally, you are not permitted over a set speed limit. Usage: Select a coaster. Select "Operating Mode". You must have "Powered Launch" selected to alter the Launch Speed.
Andrew Gillett	Unknown effect. (On the first Career mission, this code will double the value rating of your park - which will complete your first mission objective) (On other tested missions, it seems to possibly cause a slight increase in park value too)

Atomic	Big Explosion - never saw a noticable effect on this one (assume it makes certain buildings, rides, or coasters explode OR could have some effect on the Fireworks)
